Certificate in Managerial Accounting

Managerial accounting, also called management accounting, is a method of accounting that creates statements, reports, and documents that help management in making better decisions related to their business' performance. Managerial accounting is primarily used for internal purposes.

This course helps you analyze and organize cost information as per the decision-making requirements of the organization. The course helps you understand managerial accounting and its application.

Why should one take this certification?

The certification is intended for professionals and graduates wanting to excel in their chosen areas. It is also well suited for those who are already working and would like to take certification for further career progression.

Candidates get brushed up on managerial accounting concepts such as variance analysis, process costing, CVP and more.

Earning Vskills Managerial Accounting Certification can help candidate differentiate in today's competitive job market, broaden their employment opportunities by displaying their advanced skills, and result in higher earning potential.

The course covers

- Ratio Analysis
- Accounting Standards, GAAP, IFRS
- Depreciation and Inventory
- Cash Flow
- Product and Process Costing
- Cost Volume Profit Analysis

Who will benefit from taking this certification?

Job seekers looking to find employment in management, finance and accounts departments of various companies, students generally wanting to improve their skill set and make their CV stronger and existing employees looking for a better role can prove their employers the value of their skills through this certification.
