Certificate in Shiny Framework

Shiny is an R package that helps in building interactive web applications using the R programming language. It is specifically designed for data scientists and statisticians to create web-based dashboards, visualizations, and applications without needing expertise in web development languages like HTML, CSS, or JavaScript.

Note: Please note that only assessment is provided and no learning resources will be provided.

Why should one take Certificate in Shiny Framework?

Shiny Framework provides a relatively simple and user-friendly way for R users to build and deploy web applications without the need for extensive web development expertise. It enables the creation of web-based applications where users can interact with data visualizations, adjust parameters, and see immediate updates, facilitating data-driven decision-making.

Shiny seamlessly integrates with R, making it convenient for R users to leverage their existing knowledge and skills in data analysis and visualization to create web applications.

The certification attests to your understanding and applying skills and knowledge in Shiny Framework and helps you to stand out amongst your peers to help in gaining better career prospects.
